

THE CMMBA TEAM WEAR STORY

CMMBA has continued its commitment to sustainability this year with the introduction of our new line of team wear. We have guaranteed our membership ongoing availability of the same apparel from year to year which dramatically improves teams ability to in-fill items for new team members vs. having to outfit the entire team with new items when current models are discontinued. Also, with many siblings playing in the club suits can be passed from one child to the next and purchased at younger ages with the confidence that regardless of which team the player ends up on, the apparel will be the same. These facts coupled with a significant cost savings help brand our teams on the pitch so we would like as many teams as possible get involved this season.

From this point forward the club is providing our TEAM WEAR exclusively for new team or individual purchases. Orders can be processed through our on-line store at cmmba.com.

VAPOUR PLAYER'S RAIN JACKET
CMMBA 2016 Rain Jacket features a new tri-laminate fabric that allows for generous air flow, has wind-breaking properties and still sheds moisture in a softer, lighter and less bulky package than traditional waterproof gear. This jacket is an ideal combination for training, with no liner to get in your way. The jacket is waterproof to 5000mm and features a waterproof main zipper, hood, drawcord waist and I-Pod pass through.

\$79.95
